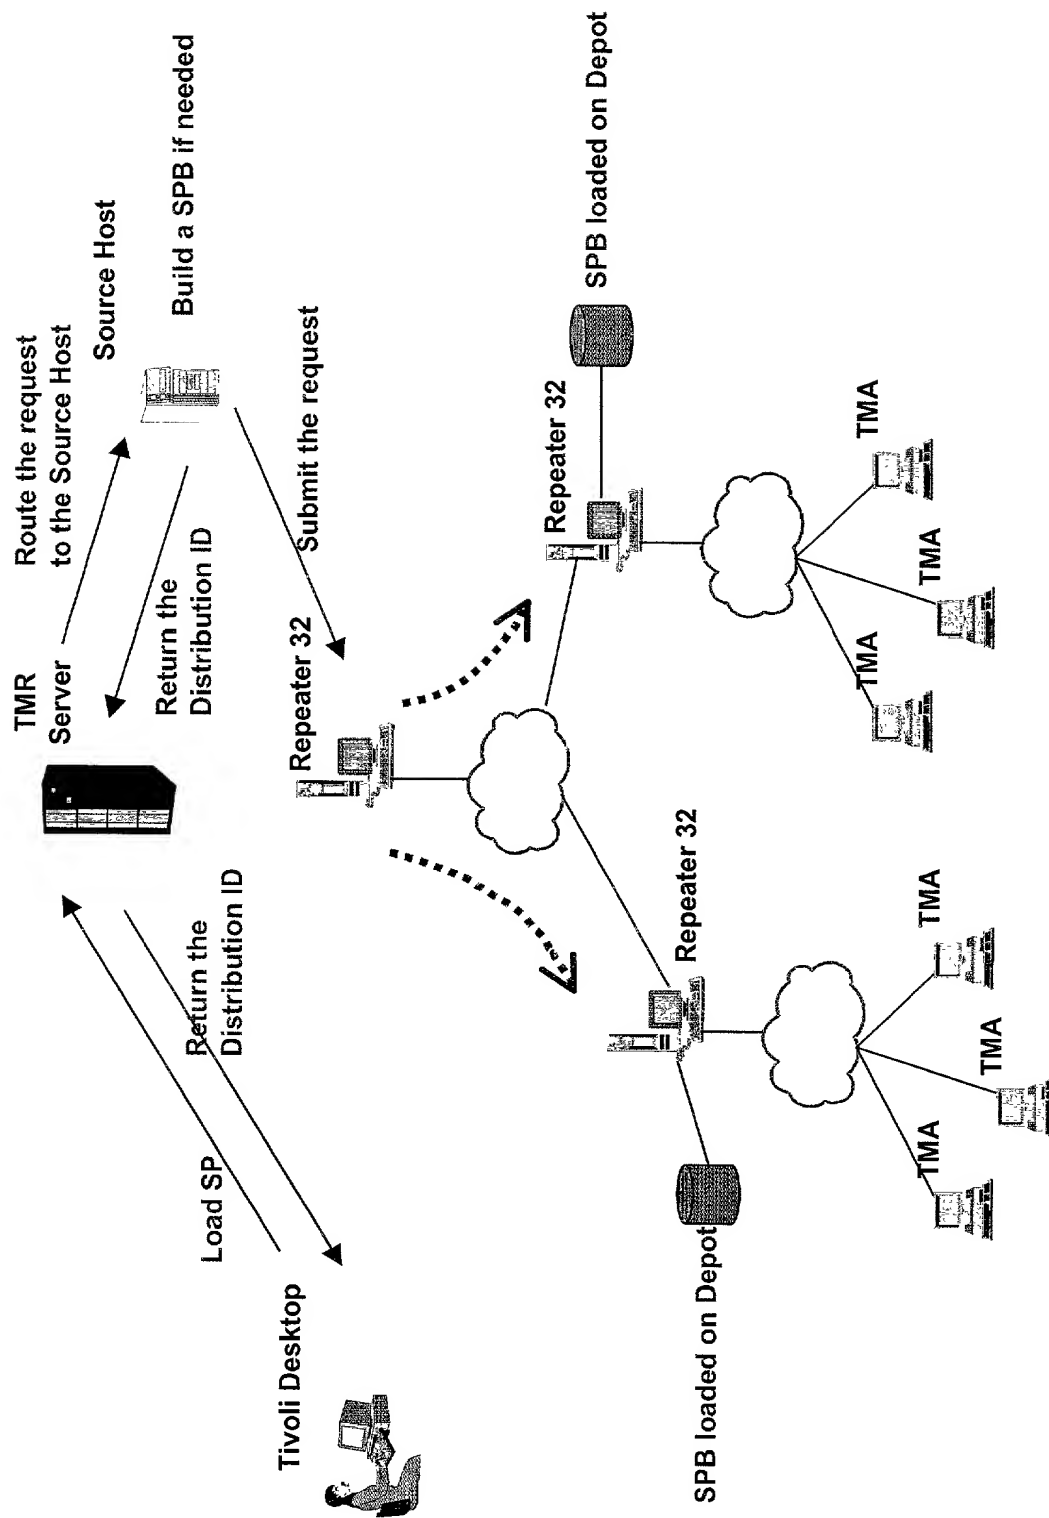

Figure 18

	Install	Remove	Accept	Undo	rollBack	Commit	Verify
transactional	X	X		X			
undoable	X	X					
undoable in transactional	X	X					
transactional & undoable	X	X					

Figure 19

Operation	State	Undo state	Reboot state	Flag
Install	Prepared	Prepared	ReBoot requested	Changing
Remove	Committed	Undoable	-	In Error
		Restored		-
		-		

IC--- means that an Install has been committed
ICU-- means that an Install has been committed and can be undone
IP-BC means that an Install has been prepared and it will be committed during the next reboot
RCU-- means that a Remove has been committed but it can be undone
IC--E means that an Install has been committed but the SP is in error, so the application may not work properly
